

FY 2004-06 STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM

New Jersey Department of Transportation Projects

ROUTE/PROGRAM	Project ID No.	TIP No.
13 Inland Waterway Canal Bridge	00369	00360

The main operating system of this drawbridge is 29 years old, obsolete, and replacement parts are no available. The system has been inspected and found to be in poor condition and in need of complete replacement. The system is currently operating erratically, with a recurrence of failures. This bridge is located over the Intracoastal Waterway, and the USCoast Guard requires NJDOT to open the bridge "on demand" of an approaching vessel. Water currents in the canal are swift, and the canal has no provisions for marine vessels to dock or tie-off in the event of a bridge operation failure.

COUNTY: Ocean

MUNICIPALITY: Point Pleasant Boro

MILEPOSTS: 0.20

STRUCTURE NO.: 1505150

LEGISLATIVE DISTRICT: 10
